I am calling on you to defund
extremist, pro-terror organizations!
Recent events have raised significant
concerns regarding the funding of
extremist groups and organizations
that promote illegal activities and
violence. On October 18, pro-terrorist
insurrectionists stormed the United
States Capitol following a rally
organized by two anti-Israel groups,

IfNotNow and Jewish Voice for Peace.

These groups have publicly issued statements that either justified or glorified terrorism, and only

but also endangers lives and undermining

Furthermore, come to my attention that these groups include new and others, have

in the benefit of subverting, particularly from individuals like George Soros. The tax code promotes the funding of groups that primarily engage in activities that

encourage violations of local ordinances and breaches of public order. This financial support is not only a violation of the law but also raises ethical concerns about the

act. See [https://www.irs.gov/charities-nonprofits/501\(c\)\(3\)-501\(c\)\(4\).pdf](https://www.irs.gov/charities-nonprofits/501(c)(3)-501(c)(4).pdf)

and section 501(c)(3) or (4) of the Code. The recent surge in extremist insurrections in our streets, fueled by money from major leftist donors, calls for immediate action. It is imperative that we hold the funders of radical domestic terrorism, regardless of their affiliations, accountable for their actions. Failure to do so has led to violence in our communities and a disregard for the law. I urge you to take steps to defund the extremist insurrection and address the network of organizations involved in these illegal activities. If the IRS is unable to enforce the tax code against

nonprofits engaged in such activities, Congress must move swiftly to close

the existing loopholes and reevaluate
the nonprofit status of groups
associated with violence, criminal
behavior, or support for terrorism.
Organizations that have shot

continuously funding terrorism and
tax-exempt organizations should be
held to the same financial standards.

By reforming the tax code, we can
the 'tax' loophole, Congress has the
power to combat and head
off illegal activities. The recent
events, including the presence of
extremist groups near Ground Zero,
should serve as a wake-up call for
all of us.
